OVERDRIVE WORKSHOP

Based in Muswellbrook NSW, Overdrive Mechanical Solutions Pty Ltd is a local family owned and operated mining company servicing the Hunter Valley and surrounding regions. Specialising in Heavy Equipment rebuilds, maintenance and breakdown repairs. We provide comprehensive solutions for the mining and civil industries and are committed to safety and reliability as we strive to run an efficient and professional business.

Our workshop facility is fully equipped and located on 3.2 acres in the heart of the Muswellbrook industrial estate, this facility outshines our competition giving us the leverage to provide a safe and professional location to undergo the biggest projects in the Hunter Valley.
